## EVENT AGENDA

This closed and private event is limited to Security Directors of Houses of Worship & Schools (public/private) & Law Enforcement of Federal, State, County, Local & Independent School Districts in TEXAS. Limited to 100 attendees only, registration is by EVENTBRITE invitation only.

## REGISTRATION OPTIONS

**Option #1:** You have been pre-sent a EVENTBRITE link, just register and your are done.

**Option #2:** Send [charles.andrews.cso@gmail.com](mailto:charles.andrews.cso@gmail.com) your name, agency/company, title, email and cell # and he will register for you. After which, you will receive an EVENTBRITE email confirmation. IF YOU HAVE OTHERS TO ATTEND, email [charles.andrews.cso@gmail.com](mailto:charles.andrews.cso@gmail.com) with same information for all parties? All parties will be vetted.

## OVERVIEW

First Baptist Church & EAGL Technology are hosting a first-ever presentation & full demonstration of their active shooter countermeasure technology using the only wireless gunshot detection system in the world. This technology was developed by the US Dept. of Energy (DOE) post Sandy Hook. More information can be found at [www.eagltechnology.com](http://www.eagltechnology.com).

With recent shootings around the country and most recently in Houses of Worship in TEXAS, this closed event will demonstrate gunshot technology with a full demonstration and showing of how EAGL technology, upon detecting a gunshot, does the following:

- Fully autonomous lockdown of facility/doors;
- Messages via Public Address System/Mass Notification;
- Ballistics Data;
- Provides Photo & Video;
- Provides Location of Shooter (Lat/Long);
- Provides realtime sharing to Law Enforcement and any others as required;
- Wireless system.

## BREAKFAST WILL BE PROVIDED!

A complete demonstration of the technology both indoors and outdoors to simulate real-world active shooter scenarios will follow the EAGL Technology gunshot presentation. Closing will be HOUSTON POLICE DEPARTMENT Senior Community Liaison - Stephen Daniel who will update attendees on Active Shooter Training, Statistics & Information.

## Parking

PLEASE enter the Church in the main entrance on the west-side and you will be directed to the auditorium where the event will take place. Parking will be on the west-side as well, which is close to the main entrance.
